1. System overview

VDARVS digitizes village administration in Lesotho: citizen registration, residency verification, official documents, disputes, animal and land records, and staff access control.

Each user signs in with email and password. The sidebar shows only pages their role can access. Approvals for residency, documents, disputes, animals, and land are performed by the **village chief**, not the administrator.

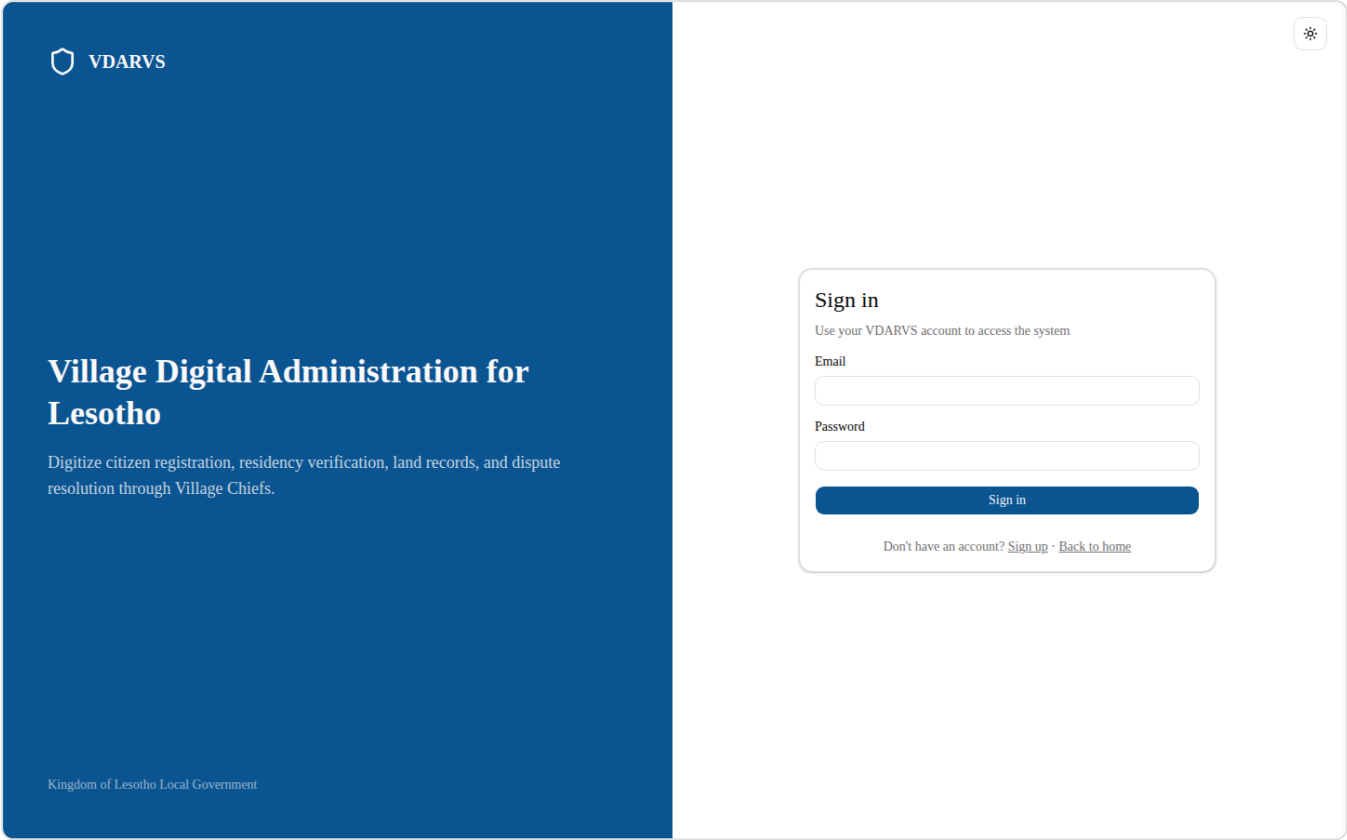

1. System overview

2. User roles and demo accounts

Role	Email	Main responsibilities
Citizen	citizen@example.ls	Onboarding, document requests, file disputes
Village chief	chief.masianokeng@vdarvs.gov.ls	Verify residency, approve documents, resolve disputes, approve animals/land
Village staff	staff.masianokeng@vdarvs.gov.ls	Register citizens, animals, and land
District officer	district.maseru@vdarvs.gov.ls	Reports, audit logs, backup residency verification
Administrator	admin@vdarvs.gov.ls	Approve role access requests only

The administrator does **not** verify citizenship or approve documents. Use the village chief account for those tasks.

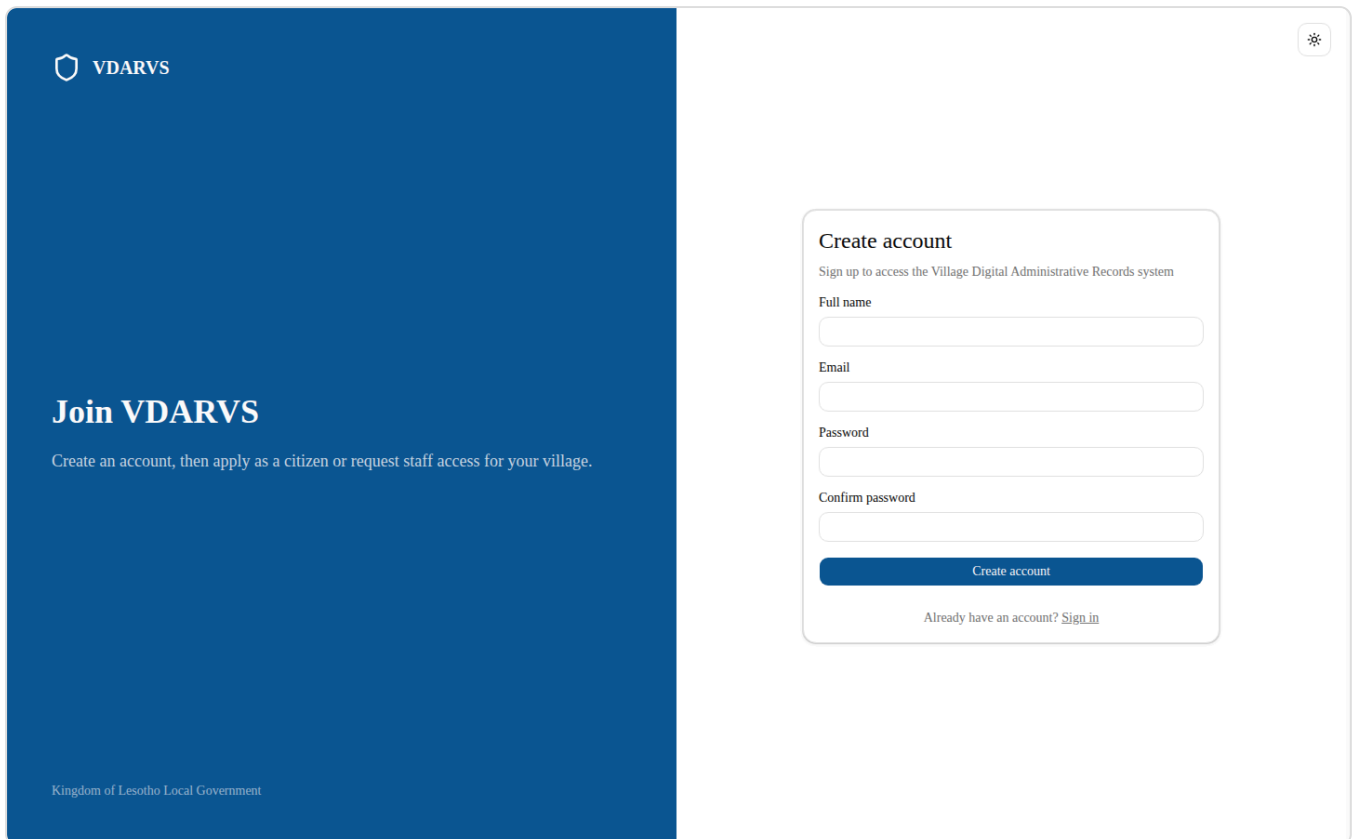

3. Getting started

3.1 Sign in

1. Open <https://vdarvs-ebon.vercel.app/login>.
2. Enter email and password `Vdarvs2026!`.
3. Click **Sign in**. You are redirected to the dashboard.

3.2 New citizen signup

1. From the landing page, click **Sign up**.
2. Create an account (default role: citizen).
3. Complete **Onboarding** to register in your village.

The screenshot displays the Vdarvs landing page and a sign-up form. The landing page has a dark blue background with the Vdarvs logo (a shield icon) and the text "Join Vdarvs". Below this, it says "Create an account, then apply as a citizen or request staff access for your village." and "Kingdom of Lesotho Local Government" at the bottom. The sign-up form is titled "Create account" and includes the subtitle "Sign up to access the Village Digital Administrative Records system". It contains four input fields: "Full name", "Email", "Password", and "Confirm password". A blue "Create account" button is at the bottom of the form, and a link "Already have an account? Sign in" is below it.

3. Getting started

4. Core workflow (citizen to chief)

1. Citizen → Onboarding → Submit citizen application
2. Village chief → Residency Verification → Verify
3. Citizen → Documents → Request document
4. Village chief → Documents → Approve
5. Citizen → Notifications → sees approval

Step 1: Citizen application

1. Sign in as `citizen@example.ls`.
2. Go to **Onboarding** → **Apply as citizen**.
3. Fill the form (Masianokeng / Maseru defaults work).
4. Click **Submit citizen application**.

4. Core workflow (citizen to chief)

Step 2: Chief verifies residency

1. Sign in as `chief.masianokeng@vdarvs.gov.ls`.
2. Open **Residency Verification**.
3. Click **Verify** on the pending citizen.
4. Citizen receives a notification.

Step 2: Chief verifies residency

Steps 3 and 4: Document requests

Citizen requests

- 1. Citizen → Documents → Request document.
- 2. Choose type, enter title, submit.

Chief approves

- 1. Chief → Documents → Approve or Reject.

My documents

Request certificates and permits. Your village chief approves each request.

Who approves your documents?
Chief Letsie Ramokoatsi, your village chief in Masianokeng, reviews pending requests. You will get a notification when a request is approved or rejected.

10. Notifications and audit trail

Approvals create citizen notifications and audit log entries. Chiefs get notified on new applications, documents, and disputes. Administrators get notified on role requests.

Automated test: `pnpm test:e2e`. See `docs/demo-flow.md`.
